REMARKABLE.—On consequence of having such a large and various assortment of goods, I did not care about making a small purchase, even as I intended keeping back a quantity of some articles. I have had and am doing my best to keep between 25 and 30 years on the Island. They are of a deep, strong, and durable quality, and I have no fear of their being well received. My experience is that the oil has passed out of the water into the barrels with the loss of these seeds.

Early application necessary.
